

JOURNAL OF THE HOUSE

First Regular Session, 93rd GENERAL ASSEMBLY

FIFTY-NINTH DAY, WEDNESDAY, APRIL 20, 2005

The House met pursuant to adjournment.

Speaker Jetton in the Chair.

Prayer by Reverend James Earl Jackson.

Heavenly Father, we come into Your presence with thanksgiving; we make a joyful sound to You with songs of admiration throughout the day!

We do not forget Your wonderful actions done on our behalf: When we were burdened with worries, You comforted us and made us feel secure. In times of trouble, You were there, picking us up when life knocked us down.

You, LORD God, are our fortress, that mighty rock where we are safe.

Today, we ask that You fill us with the true knowledge of Your will in all wisdom and spiritual insight, that we might conduct ourselves in a manner You find worthy, to please You in all things, being effective in every good work and increasing in that same true knowledge that only originates from You.

Grace be with us all.

In the name of Your Son we pray. Amen.

The Pledge of Allegiance to the flag was recited.

The Speaker appointed the following to act as Honorary Pages for the Day, to serve without compensation: Preston Dever Stevenson, Curtis Andrew Keal, Jordan Witcig, Joshua Witcig, Jonah Witcig, Cassie Ireland, Kaci Silvey and Dusty Taylor.

The Journal of the fifty-eighth day was approved as printed.

HOUSE COURTESY RESOLUTIONS OFFERED AND ISSUED

House Resolution No. 2381 - Representative Brown (50)
House Resolution No. 2382 - Representative Robb

PERFECTION OF HOUSE BILL

HCS HB 824, relating to air contamination regulations, was taken up by Representative Hobbs.

Representative Hobbs offered **House Amendment No. 1**.

House Amendment No. 1

AMEND House Committee Substitute for House Bill No. 824, Sections 444.765 and 444.766, by deleting all of said sections and inserting in lieu of the following:

“444.765. Wherever used or referred to in sections 444.760 to 444.790, unless a different meaning clearly appears from the context, the following terms mean:

(1) "Affected land", the pit area or area from which overburden shall have been removed, or upon which overburden has been deposited after September 28, 1971. When mining is conducted underground, affected land means any excavation or removal of overburden required to create access to mine openings, except that areas of disturbance encompassed by the actual underground openings for air shafts, portals, adits and haul roads in addition to disturbances within fifty feet of any openings for haul roads, portals or adits shall not be considered affected land. Sites which exceed the excluded areas by more than one acre for underground mining operations shall obtain a permit for the total extent of affected lands with no exclusions as required under sections 444.760 to 444.790;

(2) "**Beneficiation**", the dressing or processing of minerals for the purpose of regulating the size of the desired product, removing unwanted constituents, and improving the quality or purity of a desired product;

(3) "**Commercial purpose**", the purpose of extracting minerals for their value in sales to other persons or for incorporation into a product;

(4) "Commission", the land reclamation commission in the department of natural resources;

(5) "**Construction**", construction, erection, alteration, maintenance, or repair of any facility including but not limited to any building, structure, highway, road, bridge, viaduct, water or sewer line, pipeline or utility line, and demolition, excavation, land clearance, and moving of minerals or fill dirt in connection therewith;

[3)] (6) "Director", the staff director of the land reclamation commission;

(7) "**Excavation**", any operation in which earth, minerals, or other material in or on the ground is moved, removed, or otherwise displaced for purposes of construction at the site of excavation, by means of any tools, equipment, or explosives and includes, but is not limited to, backfilling, grading, trenching, digging, ditching, drilling, well-drilling, auguring, boring, tunneling, scraping, cable or pipe plowing, plowing-in, pulling-in, ripping, driving, demolition of structures, and the use of high-velocity air to disintegrate and suction to remove earth and other materials. For purposes of this section, excavation or removal of overburden for purposes of mining for a commercial purpose or for purposes of reclamation of land subjected to surface mining is not included in this definition. Neither shall excavations of sand and gravel by political subdivisions using their own personnel and equipment or private individuals for personal use be included in this definition;

(8) "**Fill dirt**", material removed from its natural location through mining or construction activity, which is a mixture of unconsolidated earthy material, which may include some minerals, and which is used to fill, raise, or level the surface of the ground at the site of disposition, which may be at the site it was removed or on other property, and which is not processed to extract mineral components of the mixture. Backfill material for use in completing reclamation is not included in this definition;

(9) "**Land improvement**", work performed by or for a public or private owner or lessor of real property for purposes of improving the suitability of the property for construction at an undetermined future date, where specific plans for construction do not currently exist;

[4)] (10) "Mineral", a constituent of the earth in a solid state which, when extracted from the earth, is usable in its natural form or is capable of conversion into a usable form as a chemical, an energy source, or raw material for manufacturing or construction material. For the purposes of this section, this definition includes barite, tar sands, and oil shales, but does not include iron, lead, zinc, gold, silver, coal, surface or subsurface water, fill dirt, natural oil or gas together with other chemicals recovered therewith;

(11) "**Mining**", the removal of overburden and extraction of underlying minerals or the extraction of minerals from exposed natural deposits for a commercial purpose, as defined by this section;

[5)] (12) "Operator", any person, firm or corporation engaged in and controlling a surface mining operation;

[(6)] (13) "Overburden", all of the earth and other materials which lie above natural deposits of minerals; and also means such earth and other materials disturbed from their natural state in the process of surface mining other than what is defined in subdivision [(4)] (10) of this section;

[(7)] (14) "Peak", a projecting point of overburden created in the surface mining process;

[(8)] (15) "Pit", the place where minerals are being or have been mined by surface mining;

(16) "Public entity", the state or any officer, official, authority, board, or commission of the state and any county, city, or other political subdivision of the state, or any institution supported in whole or in part by public funds;

[(9)] (17) "Refuse", all waste material directly connected with the cleaning and preparation of substance mined by surface mining;

[(10)] (18) "Ridge", a lengthened elevation of overburden created in the surface mining process;

[(11)] (19) "Site" or "mining site", any location or group of associated locations where minerals are being surface mined by the same operator;

[(12)] (20) "Surface mining", the mining of minerals for commercial purposes by removing the overburden lying above natural deposits thereof, and mining directly from the natural deposits thereby exposed, and shall include mining of exposed natural deposits of such minerals over which no overburden lies and, after August 28, 1990, the surface effects of underground mining operations for such minerals. **For purposes of the provisions of sections 444.760 to 444.790, surface mining shall not include excavations to move minerals or fill dirt within the confines of the real property where excavation occurs or to remove minerals or fill dirt from the real property in preparation for construction at the site of excavation. No excavation of fill dirt shall be deemed surface mining regardless of the site of disposition or whether construction occurs at the site of excavation.**

444.766. No provision of sections 447.760 to 444.790 shall apply to the excavation of minerals or fill dirt for the purposes of construction or land improvement as unrelated to the mining of minerals for a commercial purpose or reclamation of land subsequent to the surface mining of minerals.

1. No permit is required under sections 444.760 to 444.790 for the purpose of moving minerals or fill dirt within the confines of real property where excavation occurs, or for purposes of removing minerals or fill dirt from the real property as provided in this section.

(1). Excavations for construction pursuant to engineering plans and specifications prepared by an architect, professional engineer, or landscape architect licensed pursuant to chapter 327, RSMo, or any excavation for construction performed under a written contract that requires excavation of minerals or fill dirt and establishes dates for completion of work and specifies the terms of payment for work, shall be presumed to be for the purposes of construction and shall not require a permit for surface mining.

(2). Excavations for purposes of land improvement where minerals removed from the site are excess minerals that cannot be used on-site for any practical purpose and at no time are subjected to crushing, screening, or other means of beneficiation with the exception of removal of tree limbs and stumps, shall be presumed to be for the purposes of land improvement and shall not require a permit for surface mining, provided that:

(a) The site has not been designated as a surface mine by the federal Mine Safety and Health Administration;

(b) Minerals from the property are not used for commercial purposes on a frequent or on-going basis; and

(c) A pit, peak, or ridge does not persist at the site as inconsistent with the purposes of land improvement.

(3). Permits shall not be required for the excavation of fill dirt, regardless of the site of disposition or whether construction occurs at the site of excavation.

2. (1) If the director or his or her designee determines that a surface mining permit is required for real property which is purported to be for purposes of construction or land improvement not requiring a surface mining permit under this section, such determination shall be sent in writing to the owner of the property by certified mail stating the reasons for such determination. Upon request of the person receiving the letter, an informal conference shall be scheduled with the director within fifteen calendar days to discuss the determination. Following the informal conference, the director shall issue a written determination regarding his or her findings of fact no later than thirty calendar days after the date of the conference. If the director agrees that a surface mining permit is required and the person disagrees with that decision, the person may make a written request for a hearing before the commission at its next regular meeting. Such written request shall be filed within thirty calendar days after receipt of the director's written determination, except when the thirtieth day would be later than the date of the next regularly scheduled commission meeting, the written request shall be filed at least seven days prior to the commission meeting unless the director and the person filing the request mutually agree to place

the matter on the commission's agenda for a later meeting. The commission shall issue a written determination as to whether a surface mining permit is required under this state's law within thirty calendar days after the hearing. The written determination may be appealed as provided under this chapter.

(2) Until a final written determination has been issued under the process established under subdivision (1) of this subsection, the person receiving a letter stating the reasons a mining permit is required may continue activity at the site in dispute. The commission may stay the director's determination. If the final written determination is that a permit is required, all fees otherwise provided by statute or rules of the commission shall apply. If the determination is that no permit is required, no permit fees shall be required by the director or the commission.

(3) The process set out in this subsection for determining whether a mining permit is required shall not be subject to the hearing requirements of section 444.789."; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

On motion of Representative Hobbs, **House Amendment No. 1** was adopted.

On motion of Representative Hobbs, **HCS HB 824, as amended**, was adopted.

On motion of Representative Hobbs, **HCS HB 824, as amended**, was ordered perfected and printed.

HOUSE CONCURRENT RESOLUTION NO. 22

WHEREAS, the price of natural gas in the United States, already the highest in the industrial world, has again spiked and shows continued volatility; and

WHEREAS, the current price of natural gas is equivalent to paying \$16.00 for a gallon of milk, \$12.70 for a pound of ground beef, or \$9.21 for a gallon of gasoline; and

WHEREAS, abnormally high natural gas prices have been a \$111 billion unanticipated burden on the economy of the United States over the past 18 months; and

WHEREAS, the United States is over reliant on natural gas in our national energy supply, creating a tremendous imbalance between natural gas supply and demand; and

WHEREAS, the manufacturers, farmers, small businesses, local governments, and retailers are struggling from skyrocketing natural gas prices. Further, thousands of jobs in these industries are threatened since many of these businesses use natural gas as a raw material as well as an energy supply; and

WHEREAS, the natural gas imbalance is not a free market problem. The high price of natural gas is created by governmental policies that increase demand for natural gas while impeding the development of a greater supply by discouraging more exploration and production. Since natural gas is domestically produced and very hard to import, the United States cannot correct the imbalance by the importation of natural gas; and

WHEREAS, the Missouri General Assembly supports a sound, rational domestic energy policy:

NOW, THEREFORE, BE IT RESOLVED that the members of the House of Representatives of the Ninety-third General Assembly, First Regular Session, the Senate concurring therein, hereby urge the United States Congress to enact legislation in the 109th Congress establishing a domestic energy policy that will ensure an adequate supply of natural gas and the appropriate infrastructure. Such energy policy should develop a concerted national effort to promote greater energy efficiency and open promising new areas for environmentally responsible natural gas production; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare properly inscribed copies of this resolution for George W. Bush, President of the United States, the Speaker of the United States House of Representatives, and each member of the Missouri Congressional Delegation.

Mr. Speaker: Your Committee on Utilities, to which was referred **HCR 33**, begs leave to report it has examined the same and recommends that it **Do Pass**, and pursuant to Rule 25(26)(f) be referred to the Committee on Rules.

HOUSE CONCURRENT RESOLUTION NO. 33

WHEREAS, environmentally friendly oil and gas exploration and development of the coastal plain of the Arctic National Wildlife Refuge in Alaska and its adjacent land could result in major discoveries that would reduce our nation's future need for imported oil, help balance the nation's trade deficit, and significantly increase the national security; and

WHEREAS, domestic demand for oil continues to rise while domestic crude production continues to fall, which results in the importation of additional foreign fuel sources; and

WHEREAS, the exploration and development of domestic sources of oil and gas will result in lower gasoline prices for consumers in the United States; and

WHEREAS, the 1.5 million-acre coastal plain of the Arctic National Wildlife Refuge makes up only 8% of the 19 million-acre Refuge, and the development of oil and gas reserves in the Refuge's coastal plain would occur in an area of only 2,000 to 7,000 acres, which is less than 0.5% of the area of the coastal plain; and

WHEREAS, 8 million of the 19 million acres of the Refuge have already been set aside as wilderness; and

WHEREAS, the continued health and productivity of the Porcupine Caribou herd and the protection of land, water, and wildlife resources will be ensured during exploration and development of the coastal plain of the Arctic National Wildlife Refuge in Alaska:

NOW, THEREFORE, BE IT RESOLVED that the members of the House of Representatives of the Ninety-third General Assembly, First Regular Session, the Senate concurring therein, hereby urges the United States Congress to pass legislation to open the coastal plain of the Arctic National Wildlife Refuge in Alaska to oil and gas exploration, development, and production; and

BE IT FURTHER RESOLVED that the Missouri General Assembly strongly support the safeguards to ensure that the exploration, development and production of oil and gas reserves in Alaska be conducted in a manner that protects the environment and the wildlife populations; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare properly inscribed copies of this resolution for each member of the Missouri Congressional Delegation.

Mr. Speaker: Your Committee on Utilities, to which was referred **SS SCS SB 462**, begs leave to report it has examined the same and recommends that the **House Committee Substitute Do Pass**, and pursuant to Rule 25(26)(f) be referred to the Committee on Rules.

Committee on Rules, Chairman Cooper (120) reporting:

Mr. Speaker: Your Committee on Rules, to which was referred **HB 784**, begs leave to report it has examined the same and recommends that it **Do Pass, with no time limit for debate**.

Mr. Speaker: Your Committee on Rules, to which was referred **HB 880**, begs leave to report it has examined the same and recommends that it **Do Pass, with no time limit for debate**.

Mr. Speaker: Your Committee on Rules, to which was referred **HCS SCS SBs 10 & 27**, begs leave to report it has examined the same and recommends that it **Do Pass, with no time limit for debate**.

Mr. Speaker: Your Committee on Rules, to which was referred **HCS SB 42**, begs leave to report it has examined the same and recommends that it **Do Pass, with no time limit for debate**.

Mr. Speaker: Your Committee on Rules, to which was referred **SCS SB 170**, begs leave to report it has examined the same and recommends that it **Do Pass - NOT CONSENT, with no time limit for debate**.

Mr. Speaker: Your Committee on Rules, to which was referred **HCS SB 189**, begs leave to report it has examined the same and recommends that it **Do Pass, with a time limit of 1 hour for debate on Perfection**.

Mr. Speaker: Your Committee on Rules, to which was referred **HCS SB 252**, begs leave to report it has examined the same and recommends that it **Do Pass, with no time limit for debate**.

Mr. Speaker: Your Committee on Rules, to which was referred **SB 286**, begs leave to report it has examined the same and recommends that it **Do Pass, with no time limit for debate**.

MESSAGES FROM THE SENATE

Mr. Speaker: I am instructed by the Senate to inform the House of Representatives that the Senate has taken up and passed **SB 254**, entitled:

An act to amend chapter 577, RSMo, by adding thereto two new sections relating to prescription medication at school, with penalty provisions.

In which the concurrence of the House is respectfully requested.

Mr. Speaker: I am instructed by the Senate to inform the House of Representatives that the Senate has taken up and passed **SCS SB 500**, entitled:

An act to repeal section 162.700, RSMo, and to enact in lieu thereof nine new sections relating to family cost participation in the Missouri first steps program, with an emergency clause.

Emergency clause adopted.

In which the concurrence of the House is respectfully requested.

COMMUNICATION
